

Carton Labeling Machine

- Strong compatibility, suitable for all kinds of paper boxes.
- The marking adopts the tensioning design, which can not only ensure the coding quality, but also accurately control the length of the marking paper and the uniformity of the marking.
- Adopt pre-release marking system, stable marking, good marking flatness and high position accuracy.
- Roll the label paper to different bottle types in different ways to ensure the quality of labeling.
- Chinese or English dialogue control board, can store ten to twenty groups of variety parameters, adjustment, use is particularly convenient.
- Automatic operation, and the upper and the next process intelligent joint control, good coordination, no special operation, save labor.
- The control chip is imported from the United States, and the photoelectric sensing element is produced in Taiwan, which is stable and durable.

Technical Parameters

Max Capacity	120BPM
Compressed Air Supply	0.6Mpa;100L/min
Power Supply	AC 220V 50Hz 0.4KW
Size	1530×650×1550mm
