

LD-8200A Automatic Grain Rotary Doypack Pouch Filling Machine With Multihead-Weighing

Suitable for food: candy, beans, chips, popcorn, pasta, corn, rice cake, jelly, cookies, cheese, peanuts, coffee creamer, almond, Daily necessities: mothballs, disposable mask, buttons And Medical, such as pill, medicine, etc.

Features:

- The section where the material contact is stainless steel as the body of machine is optional for complete or partial stainless steel and all out equipments have passed the CE Standard.
- Computer controller is the first patent of China; inverter and power switch are all imported with advanced technology.
- High-sensitivity photoelectric color tracing and digital input of cutting position get more accuracy.
- Embedded sealing ,enhanced structure of heat sealing intelligent temperature controller and excellent heat balance make all kinds of packaging
- Equipped with rolled cup device enables volume of packing changing anytime, loss reducing and improve productivity.
- Alarming function for specific output; automatic display of packaging speed.
- Optional coding equipment and with 1 to 3 lines for batch number and expiration date.
- Bag-making, filling, sealing, cutting, counting, thermal pressing of batch number can be achieved automatically and straightly.
- Flat cutting, pattern cutting, linking cutting can be realized by changing the tools; easy operation with smooth bags.

Specification:

Model	LD-8200A
Name	Automatic Coffee Beans Nitrogen-Filled Filling Packing machine
Sealing number	8
Packing Speed	40 cans/ min
Applicable can Height	30-200mm (Adjustable)
Applicable can diameter	40-150mm (Adjustable)
Air source	0.6-0.8MPa
Power	2.5KW
Weight	2500K
Size	10000mm*3900mm*3000mm
Voltage	380V/220V,50Hz
