

GDH-200/260/320 Rotary Preformed Bag Packing Machine

This machine replaces the manual, realizes the packaging automation, THE equipment mechanical grasp will automatically take the bag, print the date, open the bag, give the measuring device signal measurement and blanking, sealing, output.

- Quickly change the specifications of the bag, and manually adjust the bag width (optional one-button automatic adjustment).
- Single shaft drive with CAM design, fast packing speed, more stable operation, more simple maintenance, reduce the rate of defective products.
- Modular heating, temperature control is more accurate, heating faults can be alerted.
- Advanced design concept reduces the loss of packaging materials, ensures the stability of equipment operation, and prolongs the operation life of equipment.
- Simple and convenient operation, advanced PLC+POD (touch screen) electrical control system, friendly man-machine interface.
- The machine has a wide range of packaging, can package liquid, paste, particles, powder, solid all kinds of bag gable materials, just according to different materials with different measuring devices.
- The machine uses prefabricated packaging bags, perfect packaging patterns, good sealing quality, so as to improve the quality and grade of products.

Technical Parameters

Model	GDH-200	GDH-260	GDH-320
Size	W : 50-200mm	W : 100-250mm	W : 200-320mm
The Biggest Bag Length	350mm	380mm	400mm
Filling Range	AC 220V 50Hz	Column 3 Value 3	Column 4 Value 3
Packing Speed	10-1000g/20-2000g/30-2500g	10-1000g/20-2000g/30-2500g	10-1000g/20-2000g/30-2500g
Mean Precision Of Measurement	10-60PPM	10-60PPM	10-60PPM
The Total Power	2.5KW	2.5KW	2.5KW
Overall Dimensions	1900 × 1570× 1700mm	2000× 1570× 1700mm	2100× 1630 × 1700mm
