

## LP-1 Bottle Unscrambler

Only need to pour bulk bottles into storage hopper, the unscrambling device deliver the bottles on the conveyor automatically and orderly.

- Infinitely variable speed, reliable operation, coordinated action, smooth delivery.
- With the variety of simple adjustment and replacement of individual mold.
- Bottle quantity control system, to avoid overdose and friction.
- with inverted bottle, anti-bottle automatic detection and elimination function, to ensure no unqualified bottles go into downstream working step.
- Fully automatic operation, intelligent joint control with the next process, without special operation, saving labor.
- Simple structure, easy to clean, easy to maintain

### Parameter Information

Model	LP-1
Capacity	30-100 Bottles per minute 30-100BPM
Voltage and power	220V/50HZ 0.15kw
Size	1200×950×1000mm
Main material of equipment	SS304
Control system	MCU
The compressed air	0.6 Mpa
Weight	175kg
