

SPE-360 Mini electronic counting and filling machine

Mini electronic counting and filling machine CCD sensitization technology, PLC control, human and machine interface operating system count automatically, put bottle by manual and fill medicine automatically, high differentiate rate, fast responding speed, count accurately, it is no need to change mould when change the type of medicine. And it can set the filling quantity in the touch screen.

This machine is widely applied for tablet or capsule counting for mini production in hospital, small pharmaceutical factory etc.

Technical Parameters:

Diameter of counting plate	360 mm
Applied size	Tablet diameter: 5 mm – 12 mm
	Capsule: 0# - 5 #
Hole quantity of the plate	5 – 100 optional
Production capacity	12 – 26 bottle(bag)/min, 20 m – 300 ml,
	60000 pcs /hour
Motor power	550 W
Power supply	AC, 220V/50HZ 1 phase
Weight	100 kg
Overall size	900 x 600 x 900 mm
