

## *LFH-HX-8 Automatic Volumetric 8 Nozzle Bottle Inline Liquid Filling Machine*

This machine adopts piston pump and rotary valve, suitable for filling all kinds of thick & sticky liquid material such as edible oil, yogurt, tomato paste, chili sauce, honey, butter, ketchup lunch meat, etc.

### **Features:**

1. Simple structure in linear type, easy in installation and maintain.
2. Adopting advanced world famous brand components in pneumatic parts, electric parts and operation parts.
3. This is piston pump filling machine for liquid detergent, shampoo, body lotion, cream, paste or other fluidity products. Simple design and easy to operate;
4. It is more simplified and more convenient for the operation. It is with precision adjustment, filling volume adjustment. This equipment is easy cleaning and maintenance.

**Specification:**

<b>Model</b>	<b>LFH-HX-8</b>
Filling Range	50-1000ml(customizable)
Filling Speed	15-25 bottles/min (100-500ml range)
Measurement Accuracy	±1%
Bottle Diameter	Φ30mm-Φ135mm(customizable)
Bottle Height	40mm-200mm(customizable)
Control system	PLC
Total production line power	6.5KW
Power supply	220V, 50Hz
Airconsumption	0.8-1.2 m <sup>3</sup> /min
Equipment material	304
Description of main packaging process:	unscramble bottle→8 head piston filling→receiving bottle
