

FWM1200 High Speed Candy Wrapping Machine

FWM1200 High Speed Candy Wrapping Machine is applicable to packaging candy and other confectionery articles in flow wraps.

Function:

- Using Computer controller system, touch screen automatic computer control can adjust the various sizes of packaging quickly and easily
- Multi-zone temperature control device, the touch screen can be arbitrarily set, good packaging and high-quality sealing to ensure product good quality packaging
- Bafu's sealing technology for superior seal integrity and package quality
- High filling efficiency of the feeding plate (plate diameter 1050 mm)
- High-speed automatic splice
- Mechanical failure automatic alarm display, easy operation and easy maintenance
- With up to 1,200 candies/min this machine moves faster than one's eyes can follow. Excellent packaging and sealing quality at all speeds
- Optional Servo Motor+Touch Screen control version, date printer can be available

Standard Specifications:

- Speed: up to 1200 packs/Min
- Bag length: 10-40mm
- Bag width: 5-20mm
- Product height: 30-65mm
- Voltage: 380V, 50Hz
- Total Power: 5.5KW
- Dimensions: 2400x1312x1885mm
- Machine Weight: 1000 kg
- Wrapping Material: CPP/PET CPP/BOPP
