Automatic Tape Sealing & Belt Strapping Machine JBKF-5050

Product introduction:

Automatic sealing packing machine is a kind of automatic sealing and strapping in one, it can form a complete set of unmanned automation assembly line, automatic sealing tape, automatic strapping, and unmanned packaging after implementation.

High working efficiency, and widely used toys, household appliances, Medicine, printing, electronic, daily necessities and other mass production industries.

Product features:

1. Sealing and strapping simultaneously, high speed, high efficiency and small volume.
2. PLC automatic program control, simple and convenient operation, low failure rate.
3. Can be stand-alone operations, and also can be used with automatic packaging line.
4. Imported carton strapping position micro switch control, can automatically play 1 or 2 band strapping

Technical parameter:

Model	JBKF-5050	JB-200
Max packing size	500*500mm	850*650mm
Min packing size	140*140mm	100*30mm
Capacity	1000 carton/hour	150*150mm
Belt width	48,60,75mm	8-19mm
Power	180W	0.85kw
Voltage	220V/50HZ	380V/50HZ
Machine size	1890*820*1410mm	1412×600×1540mm

Weight	124Kg	230Kg
