

PF-2A Automatic Powder Filling Packing Machine

This Machine Suit for packing powder and granular materials, such as veterinary medicine, granular additive, white granulated sugar, cotton, sugar, glucose, solid beverage, pharmaceutical solids, carbon powder, talcum powder, pesticides, dyes, flavors and fragrances. The hopper is made of high quality stainless steel, corrosion resistant, easy to operate and intuitive; filling with stepper motor drive, Stable performance, high packaging accuracy. Through the replacement of spiral accessories can adapt to a variety of packaging specifications, powder fine granular material packaging.

Feature

1. Photoelectric induction cutting, also optional foot switch cutting
2. Feedback means that the scale value is adjustable to meet the needs of multiple precisions.
3. Filling motor speed is adjustable to meet the requirements of various materials
4. All stainless steel material, with feeding machine can realize automatic level control.

Technical Parameter

Model	PF-2A
Packing Specification (Different loading capacity can be obtained by replacing the screw)	100-300g
	300-500g
	500-1000g
	1000g-2000g
Packing speed	10-60 bags/min
Hopper Volume	50L
Screw rotation speed	600-900
Bottle height range	0-70cm
Bottle mouth diameter range	More than 35mm
Packaging accuracy	0.5%—2%
Power	380V, 50Hz, 1A, 1500W
Dimension	850×1000×2000 (mm)
