

ZX-Z10 Grab Type Case Packing Machine

We are a manufacturer specializing in packaging machinery in Jiangsu, China, very close to Shanghai Airport. We have more than 20 years of professional experience in this field, specializing in the production of various cartoning machines, carton Erector, carton sealing machines, strapping machines, box folding machines, weighing machines, palletizing machines, etc. We also provide customers with one-to-one packaging solutions based on their actual conditions. What kind of packaging needs do you need to solve? Please contact us.

Technical features:

- Adopt PLC+touch screen control to display the action status and alarm information in real time
- Integrate product arrangement, grabbing and packing in one, with compact structure
- Operation has manual mode and automatic mode for easy operation
- Equipped with multiple protection functions, timely shutdown in case of failure
- Lifting and transfer are both driven by servo, with stable operation and high grabbing accuracy
- Packing of different products is achieved by manually adjusting and changing the fixture, with strong compatibility
- Equipped with a safety door, the machine automatically stops and alarms when the door is opened
- Other options:
 - ① Specified brand of electrical components
 - ② Stainless steel body/customized color

Technical parameter:

Model	ZX-Z10
Power supply	380V 50HZ 3.5Kw
Air supply	≥6Kg/cm ² 0.3m ³ /min
Applicable Products	Bottled, boxed, canning, etc
Applicable carton	L200~500xW150~400xH120~400mm
Arrangement	Designed according to actual packing method
Speed	6-10 times / minute Can be packed in single cases or multiple cases
Material height	900mm Customizable as needed
Material height	600mm
Mechanical Dimensions	L2000xW1800xH2600mm
Mechanical weight	About 700Kg
Equipment material	The main body is made of carbon steel sprayed with plastic, and the part in contact with the material is made of stainless steel
